RENO, WASHOE COUNTY, NEVADA, WEDNESDAY, FEBRUARY 2, 1887.

NO. 104

A Powerful Explosive.

A French chemist has just invented an explosive which he calls melenite, that resembles yellow clay, and is said to greatly exceed dynamite in power. The French government has adopted the new compound for military work, and counts upon it particularly for charging shells. It is probably this material which gave such tremendous results in the trials last autumn, when the French were practicing on iron targets. Before the shock of it nothing made by human hands seems able to stand. It seems to be another link in the chain which by and by is to kill war because of the insupportable destruction which will attend upon it.

What True Merit Will Do.

The unprecedented sale of "Bosche's German Spy" within the few years has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians. It does not act on a cough and leaves the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance will save doctors bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles.

Only Petty Larceny.

Senator Dawes does not pose as a humorist, but his wit is keen at times. During the boundary line controversy between Massachusetts and Rhode Island the subject came up at a dinner table in Washington, and a Rhode Island member of Congress, waxing indignant over it, exclaimed to Mr. Dawes:

"Dawes, it's a shame for Massachusetts to attempt to steal a part of Rhode Island! a confounded shame!"

"Don't make so much fuss about it," retorted Dawes. "If we should steal your whole State, it would be only petty larceny, and a Justice of the Peace would have jurisdiction."

Palpitation of the Heart.

Persons who suffer from occasional palpitation of the heart are often unaware that they are the victims of heart disease, and that they are in danger of death. They should banish this alarming symptom and cure the disease by using Dr. Flint's Heart Remedy. At all druggists or J. J. Mack & Co., 9 and 11 Front St., San Francisco.

New District Court Seal.

The Winnemucca Silver State says: The new seal of the District Court has been recited by County Clerk Gilson. It bears a representation of the Goddess of Justice, with a sword in one hand and scales in the other, and the legend, "United States of America, District Court, State of Nevada, County of Humboldt." The seal of the District Court is the same throughout the State, the only difference being in the names of the several counties.

Keno Prizes.

Fifty dollars; first five balls if makes a keno on first keno; \$25 for five kenos in succession on one card; \$10 for first four balls called if it makes a keno; \$5 for three kenos in succession on one card. All prizes paid in cash. HOWARD O'NEILL.

An American Colony.

A considerable colony of educated gentlemen and ladies from the United States has grown up in Seoul, Korea. A union church was recently formed, at which 25 persons were present. 13 American colleges, seven medical and four theological schools were represented, and as to politics the males were, Republicans 8, Democrats 3, Prohibitionists 2. The faculty of the Royal Medical College is wholly composed of Americans.

The Very Best.

For the very best photographs go to Murray Dunham's new photo parlor Plaza street, Reno, Nevada. N. H.—This establishment is all on the ground floor; no stairs to climb. MURRAY DUNHAM.

A Bankrupt Lord.

Lord Colin Campbell's library will be sold by auction this week at Edinburgh. The books are mainly Scotch, and the proceeds will not go far towards paying the costs of his recent suit. The bill handed in amounts to \$13,500, and this, unless paid, will land Lord Colin in bankruptcy.

Bucktin's Arthritis Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chancroid, blains, chilblains, corns and warts in eruptions and positively cures piles, or no pay re-quired. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. To be sold by S. J. Hodgkinson & Co.

A Presidential Candidate.

It is understood among the friends and political adherents of Governor Fitz-Hugh Lee of Virginia, that his present visit to the Northwest is to work up a boom for himself as a candidate for Vice President on the Democratic ticket in 1888.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reasons previously mentioned. There are measures to obviate this difficulty, and they will be found present to the taste of women and children. At all druggists, J. J. Mack & Co. (proprietors

MISCELLANEOUS.

HEART DISEASE

Headache. Dr. FLINT'S HEART REMEDY is one of the best remedies known for headache, and is often applied upon disease of the heart, sometimes upon nervous disease, and sometimes upon derangement of the circulation.

Convulsions. Dr. FLINT'S HEART REMEDY is often used in convulsions of children, and by a proper use of the medicine will prevent their recurrence, either in children or adults.

Delirium. Dr. FLINT'S HEART REMEDY, when given in cases of delirium, calms the excited brain, and by securing rest for the sufferer, promotes the restoration of health.

A Double Influence. Dr. FLINT'S HEART REMEDY is a medicine which will cure cases of Neuralgia which other remedies have failed to reach, as it exercises a double influence, in one case over the circulation, and in the other over the nerves.

At druggists \$1.50. Descriptive treatise with each bottle; or address

HAMBURG FIGS. For ladies and children whose taste cannot be offended with impunity, HAMBURG FIGS form a specialty for constipation, indigestion, piles and liver complaints which is pleasant to take as it is effective in use. 25cts.

At all druggists, or address J. J. MACK & CO. 9 and 11 Front St., San Francisco.

An Opportunity to Secure

a Home at Reno!

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

WM. THOMPSON,

reno, nevada.

WEDNESDAY FEBRUARY 2, 1887

THE NEVADA LEGISLATURE

The Nevada Legislature is composed of forty-six Republicans and fourteen Democrats. In ability, the Legislature is an average for this State; in disposition to pass wholesome legislation it is superior to any similar body which has held sway at the Capital for ten years past. Occasionally one meets in that body of sixty men some one who has the "big head" who says he won't be "jammed," who hasn't time to listen to a case of merit presented by a sovereign citizen, or who possibly might be seduced into the acceptance of boodle. But a legislator for plunder only is rare, if found at all. A U. S. Senator has been elected without stain of dishonor on fair Nevada. No serious prejudice exists against any county or individual, and no partisan attack is made on any of our State institutions. The deficiency bill passed without opposition, and there exists a disposition to appropriate liberally for the support and maintenance of the Government for the coming two years. Further, for the first time in the history of our State, it seems probable that the State will aid in the development of our resources and in a systematic way will advertise our mining, grazing, agricultural and other resources. Nevada is what we make it, and if the Nevada Legislature now in session does what it might do, and what it now seems disposed to do, to encourage immigration Nevada will boom as never before in her history.

The Committee on Education yesterday reported to the Assembly a bill for the organization of an Industrial School. It appropriates \$40,000 for the purpose. While we have not seen a copy of the bill, hence cannot speak unqualifiedly of its provisions, the principal of an industrial school is right. There are in this State at least one hundred hoodlums that should be taught trades. Now the courts place the criminally bad boy in the State Prison, and the county authorities use every possible influence to place the hoodlum of simply average meanness in the Orphans' Home. Neither the Prison nor the Home is the place for a boy simply because he is bad. The prison is for the hardened criminal beyond the hope of reform; the Home for the homeless little boys and girls innocent of crime. To place a boy of thirteen years beyond the reach of education, either intellectual or moral, and among stage robbers and cut throats is itself a crime; to place a boy of foul mouth and vile habits among those orphans, the wards of the State, is equally criminal. Let us have in Nevada, as is found in all large cities and all other States, a reform school, an industrial school, a school where the youthful criminal may be taught morals and manners; taught to read and write; taught to labor with his hands and also all other requisites of a useful manhood.

With the exception of the effort put forth to establish a normal school in Nevada, there is shown on the part of the Legislature little disposition as yet to legislate in the interest of education. No educational bill of any great moment has been presented even for the consideration of the Legislature. Nevada has a systemless system of public schools. Virtually, there is no school supervision, and without intelligent supervision there can be no progression; there is very little provision for teachers' institutes, no kindergarten, no normal training, none of the modern improvements in our schools, which have made famous the public schools of Cincinnati, Cleveland, Washington, Quincy, and many even smaller places. To make our school system what it should be, and might be, there is needed in Nevada an educator such as was Horace Mann to Massachusetts or John Swett to California, or such a member in our State Legislature as was Garfield or Logan in the national halls of Congress.

TO-DAY'S NEWS.

Defeat of the Italian Troops in the Soudan.

BELLIGERENT CANUCKS

The Strike of the New York Longshoremen.

FEDERAL APPOINTMENTS

Suicide of a Leading Tennessee Physician.

[PRESS DISPATCHES TO THE GAZETTE]

The War Feeling in Canada.

NEW YORK, February 1. A Buffalo (New York) special says that the passage of the Restitution bill by Congress has apparently stirred up the residents of the Dominion of Canada. A member of the Dufferin Guards, Eighty-eighth Regiment, a volunteer military organization, is now in this city, and last night said regarding the preparations being made throughout Lower Canada in the expectation of war being declared, that a few days ago every pensioner of the Imperial service was ordered under arms to be ready to move to the front at a moment's notice. At Greatford there are 1,000 veterans, and they are drilling daily. At Hamilton there are 600, and at various other points through Lower Canada there are enough men to furnish a standing army of 5,000 at an hour's notice. The excitement, he says, is great, and through all of the lower peninsula the militia are getting in readiness for active service.

Settling a Strike.

PITTSBURG, February 2.

W. H. Bailey, of the National Board of Knights of Labor, arrived in this city this morning accompanied by the arbitrary Board of District Assembly No. 185, which comprises all the Knights of Labor miners in the United States. They came to settle the strike of the Monongahela river miners. A conference was held with the coal operators this afternoon, at which the latter stated that the market would not justify the advance demanded, and offered to allow the miners to look at their books to prove their assertions. The matter was then placed in the hands of the Miners' Executive Board. The members of this Board will investigate the grievances of the miners and endeavor to amicably settle the strike. In the meantime, work in the mines will be suspended.

Cabinet Meeting.

WASHINGTON, February 2.

The Cabinet meeting yesterday was attended by all its members. One of the principal topics of discussion was the Hawaiian treaty and the amendment made by the Senate. Contrary to expectations the Inter-State Commerce bill was not taken up for consideration, and so far as known, nothing was said to indicate the probable action thereon. It is surmised that the President will announce his views on the subject to the Cabinet at its meeting on Thursday.

A Timely Movement.

HARRISBURG, Pa., February 2.

The House last night adopted a concurrent resolution requesting the Pennsylvania Representatives and Senators in Congress to give all possible assistance by their votes and their influence to promote a proper scheme for a sufficient defense of all our sea coast, and the building of such a navy as will command the respect of the world, and to be able to protect our seaports in case of necessity.

A Physician's Suicide.

KNOXVILLE, Tenn., February 2.

Dr. Mott Alexander committed suicide yesterday afternoon by taking morphine. He was the leading physician of Knoxville, but had recently been dissipated. He left a note saying: "I die with malice towards none; I go to Hell. Tell my son to go to Heaven." Dr. Alexander was member of the Board of Examining Surgeons of the Pension Department.

Want a Commissioner.

DENVER, February 2.

A joint resolution passed the Colorado Legislature last evening, soliciting President Cleveland to appoint, under the Inter-State Commerce bill, (should it become a law) one Commissioner from this section of the country who is familiar with the great and growing interests lying west of the Missouri river and east of the Rocky mountains.

Adopting the Irish Plan.

NEW YORK, February 2.

The Tribune to-morrow will say: "It is stated that the next step to be taken by the leaders of the strikers is to put into operation, the Irish plan of campaigning, that is, orders will be

issued to all members of the Knights of Labor and other organizations which can be controlled by District Assembly No. 49, to refuse to pay any rent to landlords, but to pay their rent money into a fund, which will go to the support of the strikers. This plan has been discussed in all seriousness by the strikes, and it is asserted by some of them, that it will be put into operation next Monday. When asked what would be done with the evicted people, one of them replied: "You can't evict a whole city." A curious feature of the strike is that the quarters of District Assembly No. 49 are without coal, and the officers and committees of the district and their visitors have to keep warm by a wood fire. Master Workman, Quinn was requested by some of the Brooklyn people yesterday to permit a barge of coal which was destined for free distribution among poor people, to be unloaded. He at once went to Brooklyn to make the necessary arrangements and put pickets on the coal to see that none of it was sold. The following appeal was issued yesterday: "To whom it may concern: After five weeks of struggle with the coal corporations controlling the Jersey coast, we find it necessary to appeal to all those having the interest of humanity at heart. Humanity, we say, for this is a struggle not for themselves, but for their ragged and starving children. So plain is the issue, so just the cause and so necessary success, that we the Longshoremen, having grievances of our own, have resolved to sustain them. An injury to one, is the concern of all. The principal upon which we came into organized existence, was mutual assistance. So glaring is the necessity for wringing from those soulless corporations enough, at least to live on, that we call upon you to ask for contributions from all sources, and respectfully request that such contributions be sent to our headquarters at No. 23 Houston street.

[Signed]
EXECUTIVE BOARD OF ALL INTERESTED ORGANIZATIONS.

Federal Appointments.
WASHINGTON, February 2.

The President has appointed Theodore Cook of Ohio, Thaddeus C. Pound of Wisconsin and George Stoneman of California a Committee to examine the 60 miles of railroad and telegraph line constructed by the Central Pacific Company, extending northerly from Delta, Cal. He has also appointed Rev. George W. Willard of Dakota the Commissioner to select the diminished reservations for the confederated bands of Cayuse, Walla Walla and Umatilla Indians, vice Wm. Pearson whose Commission is revoked.

FOREIGN DISPATCHES

An Italian Army Destroyed.

ROME, February 2. Premier Depretis yesterday informed the Italian Chamber of Deputies that there had recently been severe fighting in that part of Soudan whose occupation was being attempted by Italy, in an understanding with England. He said this fighting had resulted in almost complete disaster to the Italian forces engaged in conjunction with Abyssinian troops in their work of attempting to release Cassala, which has been besieged by hostile Arabs ever since the beginning of the Soudan war by the late El Mahdi. Going into details, the Premier said that Rasasala, the General commanding the Abyssinian troops, accompanied by a small number of Italian soldiers, attacked Saati on January 25th, and a hotly-fought battle ensued. It lasted three hours and the army of Rasasala was repulsed. The Italian loss was small and that of the Abyssinians is unknown. The next day, three companies of Italian troops left Monkut to carry provisions to Saati, when the Abyssinians again made an attack and a desperate battle was waged. The Abyssinians were defeated and the Italian troops were simply annihilated. But 90 wounded reached Marson after the battle. This statement made a profound sensation in the Chamber. Premier Depretis then added that the Italian commander recalled the troops from the advance and concentrated them at Massowah. The Radicals laughed ironically at this. The government now proposed a bill for the appropriation of \$1,000,000 with which to send Italian reinforcements to Massowah, and the Chamber at once approved it by an almost unanimous vote. Some of the Radicals having cheered sarcastically in allusion to the valor of the Abyssinian troops, the whole house rose and cheered the Government. The Radicals cried out, "We must retire." The majority rejoined with cries of "Never!" "Cowards," etc. The city last night was in a high state of excitement, bordering on frenzy, over the news from the Soudan.

The Struggle in Germany.

BERLIN, February 2.

The opening of the new Reichstag is fixed for March 10th. On the Bourse to-day, there was a total collapse of prices. Advices from Paris and Vienna cause intense excitement; Prussian consols fall 1 per cent., Italian, 1/4 per cent.; Russian,

1/4 per cent; Hungarian gold rents, 2 per cent. A notable speech was delivered by Herr Nugel at Neustadt to-day, at a Congress of the National Liberal delegates from Southwestern Germany. He charged the opponents of the septennate with breaking their compromise with the Emperor, and declared that the Liberals could not grow in the midst of men who were fighting against the safety of their country. The National Liberals he said, were the real defenders of the calm, progressive development of the Fatherland; intestinal struggles weakened the Empire. If war should be declared before the present differences were settled, the danger would be doubly great; the attitude of the center party was incomprehensible, because religious questions had not been touched upon; the elections related only to the prosperity and security of the country.

TELEGRAPHIC BREVITIES.

Another of the New York boodle Alderman was convicted to-day.

Congressman Reagan was yesterday elected United States Senator by the Texas Legislature.

Senator Mitchell of Oregon, yesterday submitted an elaborate report, asking for \$500,000 for the improvement of the Columbia river.

David Turpie was elected U. S. Senator of Indiana to-day by a vote of 74 to 76, the Labor members voting for him.

John T. Lisle, discount clerk of the First National Bank of Baltimore, is missing. He is said to have taken about \$8,000 of the bank's funds with him.

Miss Van Zant is said to have recently married, by proxy, the condemned Anarchist, Spies, whose brother, Henry, represent the absent bridegroom.

Edgar Miller, the owner of the Miller patent of the railroad car coupling, began suit yesterday in the U. S. Circuit Court at New York against the Pennsylvania Railway Co., for \$300,000 for an infringement on his patent.

PERSONALS.

Justice J. H. Borman of Verdi, was in town yesterday.

J. H. MacMillan returned from Carson last night and left for Winnemucca this morning.

V. H. Pease, the stage man, and J. F. Plageman, the drummer, arrived from the east last evening.

Joseph Organ of Star Creek, Humboldt county, and Peter Woolcock of Mill City, arrived here last evening.

Regent Getchell is here to-day looking after the damage done to the University by the wind storm yesterday.

An absolute specific for rheumatism, neuralgia and other bodily pains, is St. Jacobs Oil.

The Insane Asylum Board.

A bill creating an Insane Asylum Board has passed the Legislature. The new Board will consist of Governor U. C. Stevenson, Controller J. F. Hallock and Treasurer George Tutty. The incumbents of these offices were members of the old Board, and also the Lieutenant Governor, making the number of commissioners four, instead of three as proposed in this bill. It is understood that this Board will favor the re-election of Dr. Bishop as Superintendent of the Insane Asylum.

Coming to Reno.

The Eureka Sentinel of the 30th inst. says. S. O. Wells and family will leave to-morrow morning for Reno, where they expect to make their future residence. We regret very much to have these good people leave us, but what is our loss will be Reno's gain. They have our best wishes for health and prosperity at their new home.

University Regents.

The election of Regents for the State University will take place next Friday. Hon. W. O. H. Martin, Judge Boardman, Senator R. S. Osburn and Hon. David Allen of this county are mentioned as material out of which Regents may be made.

THE BEST

Hair restorative in the world is HALL'S HAIR RENEWER. It cures all diseases of the scalp, and stimulates the hair glands to healthy action. It stops the falling of the hair; prevents its turning gray; cures baldness; and restores youthful color and freshness of appearance to heads already white with age. The following are a few illustrations of what is done by

HALL'S

Vegetable Sicilian

HAIR RENEWER:

Mrs. HUNTERSON, 844 Franklin Ave., Brooklyn, N. Y., after a severe attack of Erysipelas in the head, found her hair—already quite bald. One bottle of HALL'S HAIR RENEWER brought it back as soft, brown and thick as when she was a girl.

Mr. KESLING, an old farmer, near Worcester, had his hair all left, and a little more was of it had become quite white. One bottle of HALL'S HAIR RENEWER stopped its falling out, and gave him a thick, luxuriant head of hair, as brown and fresh as he ever had.

Mrs. A. T. WALL, Greenfield, Cheshire, Eng., writes: "I have found the greatest benefit from the use of HALL'S HAIR RENEWER, it having restored my hair, which was rapidly falling off, and returned its original color."

Mr. EMIL SMITH, Detroit, Mich., certifies that HALL'S HAIR RENEWER is excellent for hair growing, and gives back the natural color to faded and gray hair."

Mrs. S. E. ELLIOTT, Glenelle, W. Va., says: "One bottle of HALL'S HAIR RENEWER restored my hair to its natural, youthful color."

No injurious substances enter into the composition of HALL'S HAIR RENEWER, and it is not a dye. Its vegetable ingredients render it in the highest degree beneficial to the scalp as a preventive of disease. Its effects are natural and lasting, and it does not make the hair dry and brashy, like the so-called restoratives compounded with alcohol.

Buckingham's Dye

FOR THE

WHISKERS

Is, in four respects, superior to all others. 1st—It will produce a rich, natural color, brown or black, as desired.

2d—The color so produced is permanent cannot be washed off, and will not soil anything with which it comes in contact.

3d—It is a single preparation, and more convenient of application than any other hair or whisker dye.

4th—It contains no deleterious ingredients, as do many preparations offered for like use.

PREPARED BY

R. E. HALL & CO., Nashua, N. H.

Sold by all Dealers in Medicines.

"THE IDEAL MAGAZINE"

FOR YOUNG PEOPLE IS WHAT THE paper calls St. Nicholas. Who know about it—how good it is, how clean and pure and helpful? If there are any boys or girls in your house will you not try a number, or try it for a year and see if it isn't just the element you need in the household? The "London Times" has said, "We have nothing like it on this side." Here are some leading features of ST. NICHOLAS.

ST. NICHOLAS

FOR 1885-87.

Stories by Louisa M. Alcott and Frank R. Stockton—several by each author.

"Shiloh's Seal Story" by Mrs. Burnett, whose charming "Little Lord Fauntleroy" has been a great feature in the past year of ST. NICHOLAS.

War Stories for Boys and Girls. General Bade, a chief-of-staff, biographer and confidential friend of General Grant, and one military writer, will contribute a living paper, describing in clear and vivid style some of the leading battles of the civil war. They will be panoramic descriptions of single contests or short campaigns, presenting a sort of history picture of the heroic contest in which the parents of many a boy and girl of to-day took part.

The Serial Stories include "Juan and Juanita," an admirably written story of Mexican life by Frances Courtney Bayard, author of "On Both Shores," also, "A Young Girl's Coming Out," by James Otto, a story of life in a great city.

Short Articles—Instructive and entertaining, will abound. Among these are: "How a great Panorama is Made," by Theodore R. Davis, with practical illustrations; "Winning a Commission (Naval Academy)," "The Collections of the Naval Academy"; "Boring for Oil" and "Among the Gas Wells," with a number of striking pictures; "Child Sketches from George Eliot," by Julia Magruder; "Victor Hugo's Tales to his Grandchildren," read by Mrs. Brooks. Also, interesting contributions from Nora Perry, Harriet Prentiss Spofford, Joaquin Miller, H. H. Boyesen, Washington Gladden, Alice Wellington J. T. Trobriant, Lieutenant Fredrich Schwatka, Noss Brooks, Grace Deacon, Mrs. L. H. Hopper, Mrs. Eliza Chaplin, Mrs. S. M. B. Pratt, Mary Mapes Dodge, and many others, etc., etc.

The subscription price to ST. NICHOLAS is \$3 a year; 25 cents a number. Subscriptions may be sent by book-sellers and newsdealers everywhere, or by mail to the New York number. Send for our beautifully illustrated catalogue (free) containing full prospectus, etc., etc.

Harper's Young People.

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it maintains both at home and abroad. Great success. This success has been reached by methods that must command themselves to the parents, no less than the taste of the children—namely, by an earnest and well-sustained effort to provide the best and most attractive reading for young people at a low cost. The illustrations are copious and of a conspicuously high standard of excellence.

An epitome of everything that is attractive and desirable in juvenile literature.—Boston Courier.

A weekly feast of good things to the boys and girls in every family which it visits.—Brooklyn Union.

It is wonderful in its wealth of pictures, information and interest.—Christian Advocate, N. Y.

Enemies of the Codlin Moth.
Will McLellan of Belmont, San Mateo county, Cal., says he has found that pasturing sheep in his orchard during the fruit season did much to rid his trees of that dreaded pest, the codlin moth. He says that his plan was to shake the trees every day. Most of the infected fell to the ground and were greedily eaten by the sheep, which, he says, do quicker and more effective work than men.

Resumed Practice.

Dr. W. D. Wagstaff has so far recovered from his protracted illness as to be able to resume his profession as a dentist at his old rooms in the Sunderland building.

When baby was sick, we gave her Castoria. When she was a child she cried for Castoria. When she became Miss, she clung to Castoria. When she had children, she gave them Castoria.

A New Opera Star.

The newly rising star in opera, is a Norwegian girl 23 years old named Anna Kirbel. All the managers in Europe are going wild over her, and it is said she is destined to eclipse Jenny Lind.

Notice!

Manning & Jaques have been commissioned by the Reno Gas Co., as a competent firm to do their gas piping, and the company engaged them to do the entire piping of the above character to employ only the best workman, thereby saving much annoyance and expense.

Wm. Thompson,
dec'd
Supt. of Reno Gas Co.

A Christmas Present.

The meanest man on record is the one who gave his wife an alarm clock for a Christmas present to enable her to get up early in the morning to build the Kitchen fire.

WILL YOU SUFFER with Dyspepsia and liver complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by Osburn & Shoemaker.

SCENE in a New York Police Court.

"Yousay," said the attorney for the defendant, "that the accused sought to bribe you with forty dollars?"

"Yes, sir," replied the officer, "and when I took him out to search his premises, he tried to slip a five-dollar piece into my hand—and I said, 'And you did not take it?' said the attorney.

"No, sir, I did not," calmly replied the officer.

"How long have you been on the force?" inquired the attorney.

"Since the 10th of last month," was the officer's answer.

"Well, that accounts for it," remarked the attorney, "you may step aside."

Dickens' Affront to the Secretary.

Charles Dickens, when he first

came to the United States, in 1842,

was received with prodigal attentions. Boston, New York, Philadelphia, and Baltimore vied with each other in showering adulation upon him, and the doors of the most aristocratic mansions opened wide to receive him. Plays were written and performed, in which he and his most prominent characters were personated true to nature. He was overwhelmed with invitations to balls, dinners, and receptions, and the highest social honors were showered upon him, which he received like a conceited coxcomb, and repaid by writing a slanderous account of his tour. When in Washington he held a daily levee at his hotel, and the secretary of war, calling to pay his respects, heard him say, while waiting in the anteroom: "My hour for receiving is past." That night, at a reception at the White House, he told his friend, Christopher Hughes, to inform the secretary that he was then willing to be introduced to him. "Tell him my hour for receiving him is past," was Mr. Spencer's reply. —Ben Perley Poore, in Boston Budget.

Parisian women wear tiny lace muffins in ball-rooms.

A Sad Case of Poisoning

That of any man or woman afflicted with disease or derangement of the liver, resulting in poison accumulations in the blood, scrofulous affections, sick-headache, and diseases of the kidneys, lungs or heart. These troubles can be cured only by going to the primary cause of them, and that is a diseased condition.

To accomplish this result especially, and effectively, nothing has proved "self so efficacious as Dr. Pierce's "Golden Medical Discovery," which has never failed to do the work claimed for it, and never will.

SAMPLE BOTTLE FREE

Will be sent to any one applying by letter, stating symptoms, sex and age.

Strict secrecy in regard to all business transactions.
